

NEWSLETTER AUGUST 2007

Did you know

that we developed a new screw cap for 50mm cosmetic tubes? This new „Standard“ is a 5mm higher version of the traditional H-48223x. Please find more information about the H-48228x and its different properties [here](#)

Take a look at our stock

and you will immediately know which screw caps are ready for shipment. This page is updated every Friday.

You can find out the current stock quantities [here](#)

Have you met our sales team?

Probably not, and it is about time you get to know us. We have taken a nice photograph of the team in our wonderful garden, so you can better relate to them.

Curious? Open quickly our Team

We received the visit

of the SWISO company from Wohlen. They put the RUBA through their paces during a whole day, and we comply with the requirements. Therefore we are very proud to present not only the ISO 9001:2000 certification but also the ISO 14001 one.

You will find both of them under this [link here](#).
